

Open Position - Logistics - Transportation Co-op

Deadline for resume submissions: 12/18/2009

Location: Corporate Headquarters, located in Princeton, NJ.

Responsibilities:

- * Manage and utilize current leading edge technology, including:
- * Manugistics Transportation Management System - for optimized routing and consolidation
- * Sterling Commerce TMS (formerly Nistevo) - an On-demand, hosted Transportation Management and Event Management Solution
- * Manugistics Request for Proposal Software(RFQ) - bid software designed to save time, while providing carriers with a competitive rate environment.
- * SAP - order management (sales and distribution module)
- * Swisslog - Warehouse management system for efficient planning of the Company's warehouses.
- * Manage the transportation and operational activities, both outbound and inbound for assigned plants or co-packers.
- * Represent the Corporate Transportation Department as the internal liaison between Transportation, our selected carrier base, and the operational needs of our plants and distribution centers.
- * Participate in Carrier selection for the Corporate Transportation Program and manage carrier relationships throughout the entire supply chain.
- * Project Analysis involving Cross-Functional logistics teams, including Purchasing, Customer Service, Production Planning, and Distribution to discover and resolve new opportunities for the Company
- * Presentation of experience and project work to Senior Management upon completion of internship
- * Support EDI/Web freight payment and shipment tendering initiative.

Candidate Requirements:

- * Bachelor's degree in Business Logistics or Transportation

The successful candidate will be able to demonstrate:

- * Proficiency in the Microsoft Office Suite of products
- * Superior interpersonal skills, both oral and written, and the ability to communicate effectively to internal and external customers
- * Experience in a logistics or transportation environment, either through internships or other employment
- * An understanding of Logistics Systems, preferred
- * A willingness to work in a fast-paced environment, desire to learn and contribute to a growing Company.
