

Gleason Corporation

Supply Chain Internship Summer 2007

The Gleason Corporation (www.gleason.com), a world leader in gear technology is pleased to announce the availability of a **Supply Chain Internship** at our headquarters in Rochester, New York for the June – August 2007 period.

The Gleason Corporation leads the world in bevel cutting and cylindrical gear cutting machines, cutting tools and gear design and manufacturing technology. With headquarters in Rochester NY and manufacturing facilities in Rochester, Rockford ILL, Dayton OH, Munich & Ludwigsburg Germany, Stuten Switzerland, Bangalore India and Harbin China we are truly a company with global scope and global challenges. In order to develop future talent we are establishing the Supply Chain Internship. The internship will incorporate project assignments and learning assignments and may involve travel to international locations.

The internship will encompass project involvement to include:

- Value Stream Mapping of current business processes.
- Freight Analysis
- SAP Utilization & Optimization
- Supplier Research

Learning Modules include:

- Philosophy of Supply Chain
- Materials Management
- Logistics
- Lean Enterprise
- Commodity Management
- Metrics
- Supplier Quality
- Strategic Sourcing
- New product Development Process Involvement
- Work Ethic & Career Path.

Qualifications:

Completion of 1 year Graduate level education in Supply Chain management or Undergraduate degree in Supply Chain Management; applications are also open to rising seniors in undergraduate Supply Chain Management. We are seeking motivated individuals who demonstrate strong academic standing combined with evidence of a strong work ethic. Exposure to SAP (or other ERP systems) desired. US Citizenship or Permanent Residency required.

Targeted Duration: June 2, 2007 - August 24, 2007

Compensation: Competitive

Application Deadline: April 11, 2007
