

Looking for a world-class **Manufacturing Operations Manager** for a major Fortune 500 company.

- Salary in the \$90-115k range plus bonus
- Looking for a top performer to be groomed for a Plant Manager capacity
- This individual must have a 4-year degree, preferably in Engineering
- This position can be located in multiple locations including MO, CA, NJ, OH, IN, and MD.
- Experience in **lean manufacturing** a plus
- Looking for 10+ years of industry experience with Blue-Chip companies in pharmaceutical, **food/beverage**, and/or consumer package goods
- Responsibilities include:
 - Managing daily manufacturing operations and ensuring performance & compliance metrics are met
 - Leading, motivating, and providing vision and direction as a member of the plant leadership team
 - Ensuring efficient, safe, and sanitary processing and packaging of consumer products in quantities required
