

Position/Title: SUPPLY CHAIN MANAGER - Corporate (Liverpool, NY)

Position Overview: Raymour & Flanigan Furniture, recently named “Furniture Retailer of the Year”, is the fastest growing retail furniture company in the Northeast with over \$1 billion per year in sales and growing rapidly! We are searching for a Manager level executive to oversee and coordinate a multitude of supply chain management functions.

This position reports directly to the Director of Supply Chain Services and is among the highest Manager level positions in the company.

RAYMOUR & FLANIGAN WILL OFFER THE RIGHT INDIVIDUAL AN EXTREMELY COMPETITIVE COMPENSATION AND BENEFITS PACKAGE.

Duties/Responsibilities:

- Establish vendor relationships to ensure optimal levels of inventory are maintained, while increasing inventory turns and satisfying customer demand via in stock merchandise.
- Review and analyze daily and weekly operations reports and monitor operational performance to ensure products are in stock, vendor commitments are maintained, and purchase orders are cut in a timely and adequate fashion to ensure attainment of key measures of performance.
- Work closely with vendor community to ensure compliance with Raymour & Flanigan’s supply chain management expectations. Develop/propose new and/or revised processes and metrics to support and reflect the strategic direction of the company and to support delivery of any item within 3 days or less anywhere in our trading area.
- Work closely with the transportation and warehouse departments, as well as with the merchandising team, to ensure seamless flow of merchandise throughout the supply chain. Global importing logistics and communication flow a significant part of the business.
- Develop systems understanding of forecasting and planning software to enhance and flow product from forecast, to purchase order, transmission, acknowledgement, expediting, and apply analytical skills to safety stock levels and anticipated demand as it relates to the sales forecast and vendors order flow capabilities.
- Form a continuous, close, cooperative and supportive relationship with the Field Operations personnel to ensure mutually beneficial decisions are made from a broad company perspective.

Experience/Skills/Education:

5+ years experience in mid to large company operation demonstrating a successful leadership and results oriented track record.

Familiarity with all operations processes, functions, and procedures. Overseas importing experience a plus, not required.

Excellent LEADERSHIP and COMMUNICATION skills

Excellent analytical, technical and computer skills

Strategic vision

Four-year college degree required

Key Behavioral Attributes:

Must thrive within a fast paced, ever changing, demand oriented business

Strong business acumen and analytical skills

Strong decision-making ability

Detail orientation

Partnership/Team orientation

Passion

Charisma
