

SU Accounting Alumni Mentoring Program Profile Form for Interested Students

Purpose: The program is being created in order to provide current SU students with a contact in the accounting industry, who can be used as a mentor for preparing oneself for a career in accounting. Advice on different careers in accounting, tips on obtaining internships/jobs, or advice on working after college in general are examples of discussion topics. This relationship should not be used to solicit employment from the mentor, unless the mentor initiates the possibility.
