

# Supply Chain PDP Description

The PDP recruits highly motivated, mobile-minded, recent college graduates to join BASF Corporation. Participants are provided focused opportunities to develop their professional skills and integrate them into the BASF culture. Through a series of four six-month rotational assignments at different sites participants will explore career options and develop professional skills, while fulfilling specific business needs. The program provides a comprehensive overview of the Supply Chain function. Participants will also have the opportunity to assess their capabilities, skills and interests and gain valuable exposure to BASF's culture and values. The PDP requires participants to focus their expertise on significant challenging opportunities in a fast-paced environment.

## Program Summary

- 24 month program with rotations in various areas including: Business Supply Chain, Corporate Supply Chain and Site Supply Chain.
- Assignments can be located in a variety of areas throughout the U.S. Locations include but are not limited to New Jersey, Michigan, North Carolina, Ohio and Texas.
- Placement at the conclusion of the program may lead to a variety of opportunities within the Supply Chain function.

## What can the Supply Chain PDP do for you?

- Develop technical expertise, network at senior levels throughout BASF and explore possible career tracks within the company.
- Enhance career development and deliver value to BASF through the planned assignments.
