

**Marquardt Switches, Inc.**

January 18, 2012

We are looking for 2 more interns that are Saeed caliber candidates - smart and motivated!

We have two great opportunities in our Logistics/ Supply Chain department. The projects would be centered in value stream mapping. Ideal candidates will come from the Supply Chain program, and be able to work a minimum of 20 hours per week. These will be long term projects that could last up to a year depending on the students availability.

The Supply Chain intern/ co-op will:

- Participate in and potentially lead 5S events
- Participate in and potentially lead Kaizen's
- Assist in reviewing and improving Material Review Board and RMA processes
- Optimize production planning boards
- Analyze and document current data and processes to improve Material Flow

This would be a good opportunity for a student that is interested in achieving a Green Belt certification. They would be opportunities to lead Kaizen's.

Position Requirements:

- Must have completed 2+ yrs
- Must have advanced Excel skills
- Understand of Value Stream Mapping
- Knowledge of lean manufacturing principles and best practices – green belt candidates are a plus
- Familiarity with SCOR Supply Chain Model
- Familiarity with SAP is a plus

Can Start ASAP.
